

Nisai Virtual Academy

Description

Service Description

We believe everyone has the right to education, so we take a high-quality school environment and deliver it via the internet. Nisai is the only online provider in the UK to have a full Ofsted inspection, achieving a grading of 'Good'. We provide live online classes taught by qualified subject-specific teachers across the country for students studying Key Stage 3, 4 or 5. Our goal is to ensure that every student can complete their education and gain accredited academic and such as Functional Skills, GCSEs and A Levels.

Nisai's Holistic English Language Proficiency Programme (N-HELPP) brings together live teaching of conversational English alongside the Units of Sounds and WordQ software suites. N-HELPP will give students the opportunity to build their English skills which will allow them to engage in further study and communication beyond the classroom. The live lessons will take place over a period of 8 weeks. The Units of Sound and WordQ suites will be provided for 12 months.

Additional Information

Additional Information

Through the Nisai Virtual Academy or 'NVA', we provide an inclusive, highly social and student-focused experience for all learners but particularly those who struggle with emotional, physical or learning-related barriers.

Through our own online system, called the Nisai Virtual Academy, we provide learners from all kinds of backgrounds a bespoke education that's delivered in an inclusive, social and student-focused environment. Our classes are smaller than those in schools, are interactive and taught by qualified teachers. In addition to core subjects delivered to Key Stage 3 learners we also provide recognised qualifications such as Functional Skills, GCSEs and A Levels and we also deliver vocational and non-academic courses like apprenticeships and traineeships. And for all our courses, our sophisticated tracking system records attendance, behaviour, contribution in lessons, progress made and distance travelled.

Suitable for ages

Age of Users

From **10 years** to **25 years**
