

St Paul's Way Trust Sixth Form

Description

Service Description

At St Paul's Way Trust we expect each of our graduates to be fully prepared for the opportunities and the demands of university life and the adult world.

Throughout the sixth form we place strong emphasis

on six key areas: Communication, Investigation, Participation, Networking, Scholarship and Vision.

It is because students learn to excel in these areas that they gain the confidence to become successful global citizens.

Our curriculum is the result of very close work with two of our trustees: Queen Mary University of London and King's College London. It is precisely because of our unique relationship with these higher education institutions, alongside Warwick University and the University of East London, that we are able to provide this exciting, relevant and robust learning experience.

We expect all of our sixth form students to be excited by the prospect of developing strong and effective links with our prestigious trustee organisations. We welcome applications to join our sixth form community from students wishing to work in strong partnership with us.

Additional Information

Additional Information

We have excellent facilities in our state-of-the-art £40m building.

Our course offer is designed to include all of the Russell Group 'facilitating subjects'. Choosing these will allow you to apply to the full range of subjects at degree level. We also offer courses that draw upon our arts specialism.

We are the only Faraday Science School in London and we can offer particular support for science students. Our state-of-the-art Science Research Centre allows A level students the opportunity to work directly with undergraduates and professors from Queen Mary University in areas of biological research on the Authentic Biology Project.

Our experienced sixth form team are able to guide and nurture every student individually and through our university trust partners we are able to provide bespoke academic support to meet specific needs.
