

Wapping High School

Description

Service Description

Welcome to Wapping High School where children experience something exceptional; a new vision of future learning maximising student achievement.

We are a small school and students in each year have an education that is student centred and tailored to their individual needs. Our shared expectation of positive learning behaviours are supported by modern, innovative and exciting spaces.

Our talented staff here really know every student and work with them to ensure that they leave the school truly ready to move into the world of higher education and work as global citizens, high achievers and self-confident, rounded people.

The curriculum blends high quality, imaginative learning supported by a rich, digital environment with a rigorous focus on ensuring that all students develop the highest quality skills in reading, writing, numeracy and communication. As well as following the National Curriculum, our students are also encouraged to learn how best to learn, to communicate, to think critically and strategically and to understand themselves, each other and the wider world, both real and virtual world.

The structure of the Wapping High School week provides excellent learning and enrichment opportunities for our students to build their skills and knowledge even further.

The school is proud to take its place in our community and we remain determined to continue to strengthen as a centre of celebration of our rich diversity and partnerships.
