To use limited NHS resources in a fair and equitable way, accessible by all.

We work within an environment of continuing professional development and quality improvement.

We are a teaching practice, working with medical students and health care professionals-in-training.

Enabling patients to manage their own health and care, and to access the information they require to do this well.

Maximising the potential benefits to patients and the Practice of using digital services.

Encourage ongoing dialogue and partnership with patients, listening to feedback and ideas for change. We want to have a large and active patient participation group. Please ask our reception team for details.
